

PSYCHOLOGICAL PROFESSIONS NETWORK – NORTH EAST AND YORKSHIRE Leadership Fellow

Expressions of Interest

Expressions of interest are invited from senior psychological professionals in NHS or HEI leadership roles in the North East and Yorkshire to lead the development of the Psychological Professions Network (PPN) in the North East and Yorkshire.

Health Education England have supported the development of Psychological Professions Networks in three areas of England. Additional funding has become available to support further development. A leadership fellow role is available for the North East and Yorkshire to lead on the establishment of a PPN.

The role will be focused on establishing a North East and Yorkshire PPN. They will also work closely with HEE in the North East and Yorkshire to support workforce growth and development in response to COVID-19 requirements and the NHS Long Term Plan. These will include support for staff, effective working arrangements to maintain and deliver services remotely, and workforce development in relation to post-COVID need.

The successful candidate will be in a NHS or HEI Psychological professional in a senior leadership role in the North East and Yorkshire. They will:

- Have credibility with psychological professions and wider stakeholders regionally
- Be a strong voice for psychological services in the region
- Promote the PPN and ensure its engagement with members and with HEE
- Demonstrate strategic knowledge and influencing skills
- Ensure the effective functioning of the PPN North East and Yorkshire and its accountability to the steering group, HEE in the North East and Yorkshire and PPN England board
- Ensure the work of the PPN complies with the PPNE Governance Framework
- Regularly attend and contribute to the work of PPN North East and Yorkshire and PPN England
- Work closely with the Programme Manager to deliver the objectives of the PPN North East and Yorkshire

The role is a part-time role for one day per week, with backfill salary funding up to Band 9. This appointment is until end of March 2021. The role is available on a secondment basis with hosting arrangements managed by Sussex Partnership NHS FT. Alternative arrangements may be possible.

Expressions of Interest should be via a brief CV (3 pages maximum) and an outline (maximum 500 words) explaining what you will bring to the role, and how you will practically manage the commitment alongside others in your portfolio. Please send your Expression of Interest to Gita Bhutani.

For informal enquiries, please contact Gita Bhutani, PPN England co-chair

(gita.bhutani@lancashirecare.nhs.uk or 07507 847603), or Adrian Whittington, PPN England co-chair

(adrian.whittington@nhs.net, 07917 210103).

Closing date – 19th June 2020

Interviews – w/c 22nd June 2020

Further information

The role will help create and lead a network of the 12 psychological professions listed here: <https://www.ppn.nhs.uk/resources/ppn-publications/28-who-are-the-12-psychological-professionals-in-nhs-funded-healthcare/file>, and other roles associated with the delivery of psychological services. This will allow a collective voice for these groups to enable, influence and implement workforce planning, development and education commissioning in the North East and Yorkshire.

The network will bring together psychological practitioners, managers, commissioners, professional practice educators, and experts by experience, to form a community of practice to promote and embed excellence in clinical practice across the region and to support consistent delivery of the NHS Long-Term Plan through greater professional engagement in workforce planning and education commissioning at regional, STP and local levels across the North East and Yorkshire. The PPN will be a prime mover in achieving the LTP and Covid recovery requirements across the North East and Yorkshire in a consistent and considered manner.

The network will perform three key functions:

1. Championing the existing and potential roles of psychological professions across the whole of health care in the region
2. Supporting provision of clinical excellence and innovation of psychological practice across the North East and Yorkshire.
3. Actively engaging with, informing and supporting workforce development/training and expansion at regional, STP and local levels throughout the region.
