Helping people to be
the best they can be

For more
information visit:
www.canddid.nhs.uk

Topics for the day:

- Intensive support services for people with intellectual disability.
- Impact of COVID-19 related restrictions on the families and carers of people with intellectual disability and autistic people.
- Reducing health inequalities using advances in Pharmacogenomics and Pharmacogenetics.
- Advances in our understanding of dementia and its management in people with intellectual disability.
- Making dialectical behaviour therapy (DBT) accessible for individuals with intellectual disability.
- Meaningful engagement of people with intellectual disability in developing research: co-production in research.
