Strategic Clinical Networks- Patients & Priorities

The Vision

Quality of care will be improved and
unwarranted variation in services
reduced

STRONGER
TOGETHER

Strategic Clinical Networks- Patients & Priorities

How Will We do This?

Use health & social care evidence
or consensus where evidence is
not available

Put patients, carers and public at
the centre of our activities

Identify & spread best practice
through leading, influential
clinicians & organisations

Be clinically led, with an equal
voice for patients & carers
alongside clinicians,
commissioners & managers

We will bring people together
independently of professional
and organisational interests

Successfully produce agreed
improvement
programmes which are evidence
based & value for money

Strategic Clinical Networks- Priorities

Mental Health Priorities

Reduce premature death for people with mental health problems

Review the clinical delivery and outcomes of IAPT services

Review the clinical delivery and integrated care pathway in Secondary Mental Health and Crisis Services

Improve mental health knowledge within commissioning and primary care

Develop an integrated care pathway which supports early diagnosis of mental health problems

Develop a Mental Health Data Pack for commissioners alongside guidance and best practice

STRONGER
TOGETHER

Strategic Clinical Networks- Priorities

IAPT

Delivering IAPT Services within
Criminal Justice Liaison Teams -
Wigan

Support the roll out of the IAPT
Leadership Plus Programme

Develop a commissioning toolkit
to support the informed
commissioning of IAPT services

STRONGER
TOGETHER

Strategic Clinical Networks- Priorities

IAPT Guidance

Meets Clinical
Standards

Is informed by
best practice

Services reach out
to excluded
groups

Leadership
beyond target
based
performance
management

Provision is
underpinned by
mental health
demographic

Commissioning
considers IAPT
and IAPT plus
